Restaurant and hotel rest rooms	Storage solutions
Hotel / Motel rooms	Cabinetry
Aged Care*	Toilet cubicles
Bed heads and bedside tables	
Wardrobes	
Bedroom furniture	

*Includes wall and ceiling linings

Maintenance

Navurban Diamond Finish™ surfaces are easy to clean using a cloth dampened with warm water and detergent. If in doubt about a particular cleaner or detergent, check with its manufacturer for the suitability. We recommend you test on a small area or sample prior to applying to the surface. Avoid the use of acetone or trichloroethylene for cleaning purposes. Use of abrasive cleaners, powders, scouring pads, steel wool, sandpaper etc. damage the finish and make the surface susceptible to staining. Accidental spills or splatters from these harsh materials should be wiped off immediately, and the area cleaned thoroughly with a damp cloth. Examples of these materials are: Ceramic cooktop cleaners, tub and tile cleaners, chlorine bleach, oven cleaners, and harsh detergents. For information regarding touch up and repairs please contact your local representative or call 02 9457 9622.

Fabrication

Panel saws or table saws may be used to cut Navurban Diamond Finish™. Routers for trimming edges must have a smooth, clean base plate, so that the surface will not be scratched. Use carbide-tipped bits with ball bearing guide rolls. Keep all bits sharp. Drilling into Navurban Diamond Finish™ may be done with standard wood bits or with router bits. For a final edge finishing use a flat smooth or fine file.

Grain Direction

Navurban Diamond Finish™ grain runs vertically along the length of the panel. Please refer to the Product Specification List for further details.

Technical Advantages

Navurban Diamond Finish™ offers consistency in woodgrain structure and tone across each panel, creating the ideal surface for large or small installations. Navurban Diamond Finish™ is available as a finished panel on your substrate of choice, with matching ABS edging to complete the project.

Features & Benefits

The benefits of Navurban Diamond Finish™ include:

- Extensive range of designs • Pre finished board • Colour and grain consistency over a large number of sheets • Matching ABS edging • Scratch and abrasion resistance
- High levels UV resistance • When recycled breaks down to Carbon Dioxide and Water.

Navurban Diamond Finish™ is produced in Australia to ensure the highest levels of quality and service, no matter how small or large your project.

Edging

Navurban Diamond Finish™ matching ABS edging range is available in 1.0mm. The edging is also available in 22mm, 38mm and 54mm widths to suit a wide range of panel thicknesses. ABS is a durable edging alternative that is ideal for high traffic areas and suitable for wet areas.

Technical Specifications

Panel Size 2400mm x 1200mm, 3600mm x 1200mm Stock is held in a select range of colours; 2400mm x 1200mm x 18mm and 3600mm x 1200mm x 18mm, 25mm and 32mm. All boards are finished G2S on a EO MR MDF as a standard. Made to Order boards will have a 10 working day lead time. For more information on stocked items please contact your local representative or call 02 9457 9622.

Guarantee

New Age Veneers Pty Ltd guarantees the intrinsic qualities of Navurban Diamond Finish™. Discoloration due to exposure to sunlight and ultraviolet rays cannot be considered a material defect. In the event of any dispute, the guarantee and liability of New Age Veneers Pty Ltd is limited to the replacement of any material shown to be defective.

New Age Veneers Pty Ltd reserves the right to discontinue any designs or products without notice at any time.
